A legendary brand. Becomes cult.

As a bathroom brand operating all over the world, we've got our finger on the pulse. That's why we not only surprise you with new products, we constantly reinvent ourselves too. As a result, we have repositioned the DUSCHOLUX brand for 2019 and updated our image. We have reworked our logo and given it a new meaning. As part of our new direction, we have consolidated our product portfolio and divided it into five product worlds so we can focus on what's most important. Design, architecture and functionality come together in understated, high-class products. We leave you as much freedom as possible to plan and design and take our cue from your ideas.

D DUSCHOLUX

The exclusive feel-good oasis, the architectural masterpiece, the small bathroom, guest bathroom or the standard for rental properties. In our product worlds, you'll find the perfect option for every desire, every bathroom layout and every budget. And the special touch is that DUSCHOLUX will make all your ideas a reality.

5 worlds.
365 days to
discover them.

Viva

Refined style icon.
Brings life to your bathroom.

The Viva product world embodies innovation. Masterful workmanship, clear lines of sight and invisible functionality speak for themselves. When paired with your flair for first-class bathroom design, you give this shower enclosure its own special personality. Viva represents class in its purest form.

Viva Sliding doors

Variable profile and creative freedom.

The Viva sliding door fits into your room particularly well thanks to its innovative guide profile. Glass or stone-effect PanElle can also be integrated into the profile to add that special touch. This is how the right PanElle rear wall can really bring together the overall look. Rich in contrast or understated – combine all the benefits of a modern sliding-door shower enclosure with a surprising level of creative freedom.

- 01** With the new Viva and PanElle Stone, the shower enclosure blends into the rear wall – and creates an exciting overall concept.
- 02** The PanElle surface is skilfully integrated into the guide profile – whether you go for glass or stone.
- 03** Special solutions for particular rooms: with Viva, the planning remains flexible from the beginning.

01

With no wall profiles, Viva impresses with its high level of transparency and virtually unliwithed possibilities – even in made to measure dimensions.

02

The hidden functions are a guarantee of comfort with Viva: the slim top profile with concealed roll guide, the Push & Clean function for easy cleaning and our soft-close mechanisms for smooth opening and closing.

Individuality lies in the details.

The new Viva shows you how.

Without a wall profile and with a concealed roller guide in the minimalistic top profile, DUSCHOLUX Viva is reduced to the bare essentials: a partially framed shower enclosure that enhances every bathroom with its transparent effect. The new freedom offered by the profile designs gives you a unique interior design with a personal touch.

Features

- Partially framed sliding doors with a glass thickness of 8 mm
- Customisable guide profile with glass or stone-effect PanElle
- Wide range of made to measure installation options and sizes
- Soft-close function for smooth opening and closing included
- DUSCHOLUX CareTec Pro glass finishing included
- Push & Clean function for easy cleaning
- Standard shower enclosure height 2000 mm, available up to 2100 mm and up to 2500 mm in the floor to ceiling version

Viva Swing doors

Colourful accents in unison with the rear wall.

For those who prefer elegant swing doors, our new Viva shower enclosure offers plenty of room for individuality. You can even pair the glass or stone-effect surface of the hinges with the matching PanElle rear wall. In addition to the popular Chrome options, you can also go for Graphite. With Viva, everything is possible!

Features

- Frameless swing doors with a glass thickness of 8 mm
- Minimalist swing hinges with lift-and-lower mechanism
- DUSCHOLUX CareTec Pro glass finishing included
- Available in Chrome or Graphite
- Hinges can be customised with glass or stone-effect PanElle
- Wide range of made to measure installation options and sizes
- Optional flush-mounted wall profile for even greater transparency
- Standard shower enclosure height 2000 mm, available up to 2200 mm

01

The slim and extremely flat hinge is flush on the inside and particularly easy to clean – with a practical lift-and-lower mechanism as standard.

02

Individuality down to the last detail: hinges and handles are also available in glass or stone-effect PanElle.

03

Viva means freedom – with colours and installation versions too.

Collection

The one and only.
As flexible as you need.

The frameless product world Collection focuses on what's important: exceptional convenience, a simple look and no effort. Tailor-made frameless shower enclosures give you a unique shower experience in any room layout. With almost limitless possibilities for installation and refined details, Collection lets your creativity run wild. Lacking in profile? Collection is anything but that.

01

02

01
When it comes to installation and fitting, almost anything is possible: custom sizes, bevels and glass cut outs make this range work for every room layout.

02
Small detail, big impact: the smooth internal screw-fixed hinges combined with the DUSCHOLUX CareTec Pro glass finishing make Collection 3C particularly easy to clean.

03
The new glass-to-glass hinge rounds off the installation options.

03

Collection 3C

Excellent design, attractive price.

The frameless and multi-award-winning Collection 3 shower enclosure is now available in the Collection 3C version. Finished with DUSCHOLUX CareTec Pro and a smooth internal design, it's particularly easy to clean. The hinges are screw-fastened, offer various adjustment options and additional designs and can also be used for mirrored glass. DUSCHOLUX now offers the elegant Collection look in an even wider range – so that no wish is left unfulfilled.

Features

- Frameless swing doors with a glass thickness of 8 mm in a timeless design
- Smooth internal surfaces for easy cleaning
- Wide range of made to measure installation options and sizes and additional designs thanks to the new glass-to-glass hinge
- DUSCHOLUX CareTec Pro glass finishing included
- Integrated lift-and-lower mechanism in the hinges with various adjustment options
- Standard glass height 2000 mm, available up to 2200 mm
- Can be combined with flush-mounted wall profile

Air

Transparent trendsetter.
More room for ideas.

The frameless product world Air pays homage to true freedom of design and a sensuality that creates a great deal of personality from this minimalist style. The free-standing shower enclosures work particularly well in spacious and accessible walk-in solutions. The large number of colour options enables you to choose freely between a carefully understated style and a sophisticated highlight. There's more than love in the Air!

01

The play on colour effects is intended here: whether in front of designed rear walls or in a bright room – the new Air Colours glass versions add interesting visual touches.

Air Colours

Add a touch of colour to your bathroom.

Our most puristic Air shower enclosure has been redesigned with four complementary colour tones. This way, we are giving you the chance to implement completely new design approaches with proven safety, quality and ease of cleaning. Air Colours adds unusual touches of colour and transforms the traditional shower enclosure into an eye-catching design object.

- Features**
 - Four new glass colours: Sunset Gold, Ocean Blue, Desert Sun and Ruby Red for the entire Air product world
 - Walk-in shower enclosure without crossbar in different installation versions
 - DUSCHOLUX CareTec Pro glass finishing included
 - A glass thickness of 10 mm and a width of up to 1500 mm
 - Standard glass height 2000 mm, available up to 2200 mm
 - Also available in combination with shower trays

Air Colours

Air Colours makes state-of-the-art bathroom design possible. The four new glass colours Sunset Gold, Ocean Blue, Desert Sun and Ruby Red transform the traditional shower enclosure into an expressive design element.

Air Plus

High standard with added value.

The new version of Air Plus impresses with the shortest delivery times. The combination of a beautifully designed DUSCHOLUX Bestone shower floor and Air shower enclosure is always available straight away in standard sizes. If the wall slope complies with construction standards, a measurement is no longer required and the shower enclosure can be installed without delay. The special profile connection replaces the usual silicone joint and makes Air Plus maintenance-free. And, of course, this version of Air doesn't require a crossbar and is particularly easy to clean using DUSCHOLUX CareTec Pro glass finishing.

Features

- Complete solution comprising a high-quality DUSCHOLUX Bestone Savona shower floor and 10 mm walk-in shower enclosure
- Transparent effect – without the usual wall profile or crossbar
- Maintenance-free and secure – without visible silicone joints
- DUSCHOLUX CareTec Pro glass finishing included
- Fast delivery with the shortest deadlines
- Broad range of standard sizes, customs sizes available
- Glass width of up to 1500 mm
- Standard glass height 2000 mm, available up to 2200 mm

01

Air Plus offers the lightness and transparency of the Air product world in combination with the DUSCHOLUX Bestone Savona shower floor as a fast, secure and maintenance-free package.

02

The 10 mm-thick glass is securely mounted without any crossbars getting in the way. Wall slopes of up to 11 mm can be compensated as standard.

03

Minimalist, easy-care aluminium profiles replace the usual silicone joint with Air Plus – making maintenance a thing of the past.

Bella Vita

Bestseller with style.
And meaning for life.

The reduced-frame product world Bella Vita gives you the freedom to implement any design idea. With a wide variety of versions, well-thought-out functions, spacious dimensions and high-quality materials. The various door and glass options give a small bathroom just as much class as a large one – with a masterfully understated look. Bella Vita makes life particularly beautiful.

Bella Vita 3 Plus

Transparent with a touch of colour.

Winner of the iF product design award, Bella Vita has been setting standards in functionality and adaptability for many years. This is why we are constantly developing this product world further. Since 2018, DUSCHOLUX has been offering you additional floor to ceiling solutions with Bella Vita 3 Plus that impress with a more transparent design with no wall profiles.

Features

- Partially framed shower enclosure with sliding doors
- Wide range of made to measure installation options, including floor to ceiling
- Transparent design with no wall profile
- Push & Clean function for easy cleaning
- Optional soft-close function for easy opening and closing
- Additional profile colours Black, Black Chrome and Gold
- Standard shower enclosure height 2000mm, available up to 2100 mm, and up to 2500 mm in the floor to ceiling version

01
Floor to ceiling, Bella Vita 3 Plus creates a solution with maximum transparency.

02
A nice touch: the aesthetic profiles in a variety of colours cover all screw connections and mountings.

Allegra

Linear classic.
A welcome addition to any bathroom.

If you prefer to see the big picture, welcome to the Allegra product world. The entry-level series fits perfectly in any situation while staying discreetly in the background. The framed shower enclosures can be installed in a flash, so they pay for themselves, especially if you're building a property. Allegra – the classic for your bathroom.

Allegra Plus

Comfortable and expressive.

Our new Allegra Plus with two-panelled sliding doors combines all the strengths of a classic with a modern, lighter look, since the innovative seal means that the overlapping of the glass is barely visible. This creates more transparency – and requires less of a profile. The simple swing out mechanism makes cleaning much easier.

Features

- Framed shower enclosure with two-panelled sliding doors
- Range of made to measure installation options and sizes
- Integrated handle bars
- Standard shower enclosure height 2000 mm
- Doors that swing inwards for easy cleaning

- 01**
- The slim, transparent seals between the door and the fixed panel guarantee reliable splash protection without glass overlapping.
- 02**
- Allegra Plus' doors swing inwards, making cleaning and maintenance much easier.
- 03**
- The two-panelled sliding door offers various design options: as corner entry, in niche designs or with an additional side panel.

When you hear someone talking about production, they usually mean technology and economies of scale. We talk to you about your requirements first. This is how we find out what you're concerned about and what's important to you. Using this knowledge, we develop innovations and continuously improve our products.

Innovating for
the future.
With our finger
on the pulse.

DUSCHOLUX CareTec Pro

Ease of cleaning redefined.

We have further developed and improved our DUSCHOLUX CareTec glass finishing. With DUSCHOLUX CareTec Pro, our shower enclosures have a surface that can do even more: it's antibacterial, water- and grease-resistant and stops limescale, dirt, or soap residue sticking to the glass. This means you don't need to use the glass wiper after showering and can easily remove any limescale stains with a microfibre cloth during your weekly cleaning. You don't need any cleaning agents. This is environmentally friendly and saves time.

New formulation – extended guarantee:

- 10-year protection against glass corrosion
- 5-year guarantee on ease of cleaning

01

01

Water droplet on traditional glass.

02

The contact angle of a water droplet is considerably reduced on the hydrophobic DUSCHOLUX CareTec Pro surface, making it easier to run off.

02

PanElle Graphics

New patterns in black and white set bathroom trends.

In modern bathrooms, individuality is the key. That is why DUSCHOLUX has added four new PanElle Graphics patterns to its PanElle wall paneling range. They are inspired by hip architectural trends and add new touches to your bathroom design. The key detail here is the intensity: you can determine the degree of transparency yourself with a choice of four gradations. This way, you can achieve individual and surprising effects.

01

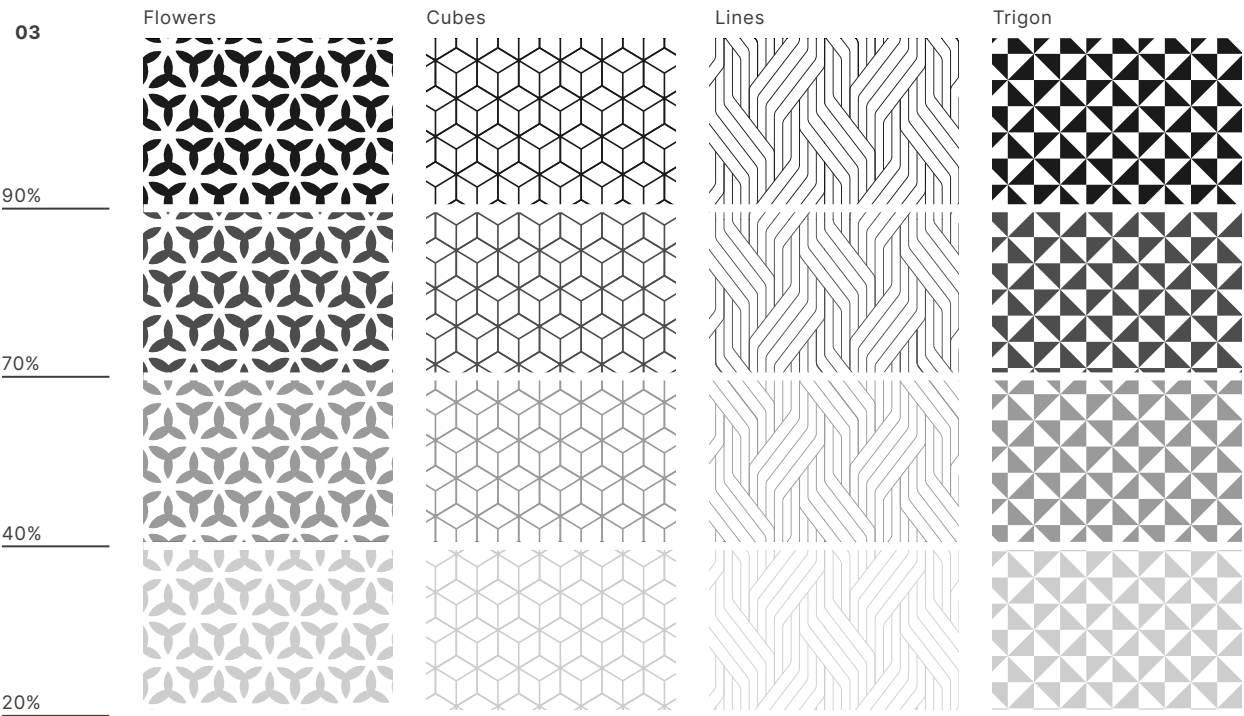

With PanElle Graphics, you can create unique effects in your bathroom – in combination with the glass colour carbon, for example.

02

The perfect cut at the factory ensures a precise, waterproof transition without offset in the Flowers, Cubes, Lines and Trigon patterns.

03

With PanElle Graphics, you can choose the degree of intensity yourself: with 90%, 70%, 40% or 20% transparency.

PanElle Click

Invisible and revolutionary.

We have extended our PanElle wall panelling range with a practical connection solution that has a panel thickness of 11 mm: PanElle Click is particularly easy to install and ensures a homogeneous, almost invisible transition. That is why the system is perfectly suited to large-scale patterns and photo prints as an alternative to buffer profiles and silicone joints. You can position PanElle Click precisely and without offset – visually seamless and waterproof.

01

With PanElle Click, the tiles merge into one another almost invisibly. The waterproof connection is particularly suitable for the new, large-scale patterns.

02

The new connection for wall panelling with a thickness of 11 mm is a revolutionary alternative to obstructive buffer profiles and silicone joints.

PanElle Stone

Elegant look with genuine natural stone.

PanElle Stone is a unique combination of genuine natural stone and the proven PanElle wall panelling system. The stone is applied onto the backing layer in a thickness of 2-4 mm. With various types of slate, PanElle Stone impresses with the look and feel of a natural product, which can be easily machined and has a very low dead weight. As with real stone, each tile is an original and offers a different effect.

PanElle Stone

Looks like real stone, but is PanElle wall panelling: available in the colours Earth, Graphite, Volcano and Quartz, PanElle Stone is an interesting alternative to heavy natural slabs.

Formia bathtub

Matt look, natural feel.

The new rectangular Formia tub is available in the new DUSCHOLUX Bestone material as a free-standing and wall version. The matt appearance and the central drain with flush cover are what make Formia simple and modern.

01

02

01
Formia is our new and modern rectangular bathtub measuring 1700 x 750 x 600 mm (Formia Free) and 1700 x 850 x 600 mm (Formia Wall).

02
The matt appearance is what makes this tub so special – and the central drain with a moulded, flush overflow is very convenient.

Tubs

40-41

03

03
Savona is available in five standard sizes and two elegant colours: White and Cement Grey.

Savona shower floor

The shower fitted flush with the floor.

With Savona, we are offering a shower floor made from the new material DUSCHOLUX Bestone, in keeping with Formia. The drain is concealed under a rectangular cover made from stainless steel or in the same colour as the tray. Savona is available in many standard sizes or can be cut to the desired size.

Our new website lets you really immerse yourself in the DUSCHOLUX product worlds on any device. The simplified navigation with a practical search function helps you to find the information you need quickly and easily. Downloads and specific content for your individual needs help you with planning – in trade and crafts. Whether you're an architect, planner or private customer, with www.duscholux.com you're on the right side.

DUSCHOLUX online

Configurator

Here’s how planning can be fun and make sense.

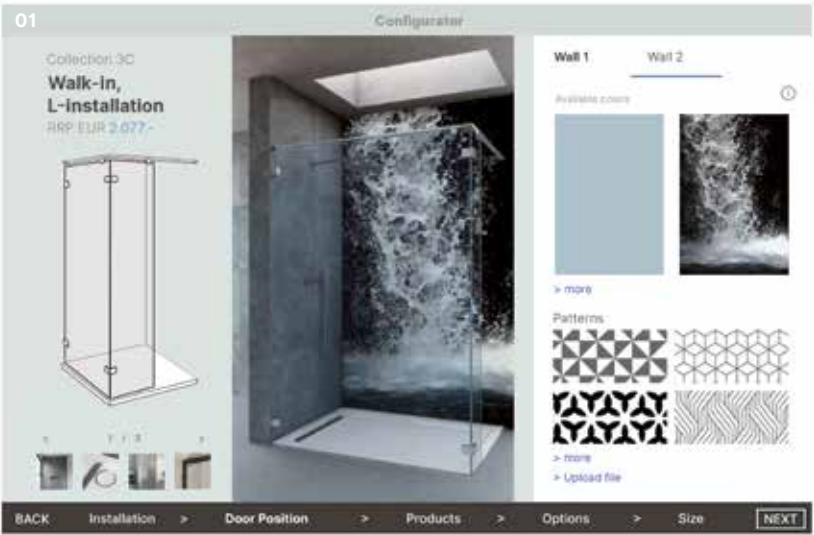

The configurator is the key feature of our new website: with intuitive user guidance, it makes it fun for you to find your ideal customised bathroom solution. It's quite simple: enter your structural requirements, followed by the type of shower or PanElle wall panelling you want. The program processes your data and immediately provides you with the most suitable solution – realistically displayed and with a price quotation for the selected model. There’s no clearer way to plan your shower solution.

01

Surprising effects with our PanElle wall panelling: experience how colours can change the effect of a room and customise your shower area.

02

Variable and realistic down to the last detail: the configurator also takes into account whether your shower enclosure should stand on a shower tray or a tiled floor.
