

# Hotel Amerikalinjen

122 creative bathroom solutions for the Amerikalinjen boutique hotel.

With Amerikalinjen the journey began for thousands of hopeful Norwegians. They wanted to leave for the land of unlimited possibilities. The venerable headquarters of the Norwegian shipping line to America opened its doors in 1919. 100 years later the illusion is breathed new life into it. The iconic building will be converted into a pulsating boutique hotel for the modern explorer. The private client entrusted DUSCHOLUX's experts with the complete design of the bathrooms and the selection of bathroom fittings, from project planning to product selection and installation.

**Client:**

Amerikalinjen, Oslo

**Scope of supply:**

122 shower walls based on Collection, project planning, dimensions, delivery and installation.

**Additional glass solutions:**

DLight room divider

**Date of implementation:**

2018

# Solutions delivered in a package.

## Highly individualised.

We installed 122 shower walls in custom-made special sizes from the Collection product world and equipped the rooms with homogeneously illuminated DLight combinations. In addition, matching bathroom furniture, accessories, mirrors and bathroom doors made of glass with screen-printed line patterns - in the style of the hotel's Art Nouveau façade - were added.

If you have any questions or wish to see more pictures of the project, further information is available on our website.
