

Renovating made easy.

15 new showers for the Hotel Kemmeriboden-Bad, located deep in the Emmental.

Where the river Emme has its origin is not far away the time-honoured and yet modern country inn Kemmeriboden-Bad. With its 30 authentic and individually furnished rooms, the house also offers space for overnight guests who want to rest or meet on site. We are particularly pleased that these guests also encounter innovative shower solutions when showering. With the Bella Vita 3 shower wall and the PanElle wall cladding system, the Invernizzi family has selected two DUSCHOLUX products for their renovation project, making each room unique.

Client:

Hotel Landgasthof Kemmeriboden-Bad
Familie Invernizzi
6197 Schangnau, Schweiz

Scope of delivery:

15 Bella Vita 3 Round
13 PanElle photo printing
Project planning, measurement, delivery and assembly

Date of implementation:

December 2018

Authentic and individual.

Perfect integration

The partially framed and adaptable shower wall Bella Vita 3 now lives in almost all rooms. The Round version with sliding door integrates into the existing room situation in an uncomplicated and space-saving manner, which creates a pleasant feeling of space despite limited space.

Creatively implemented

With PanElle photo printing, the desire for uniqueness was particularly taken into account. First taken around Kemmeriboden-Bad by a photographer, we printed the provided pictures on different PanElle plates and created something unique.

Thanks to PanElle, our fitters were able to modernize the bathrooms within days without replacing old tiles. Installed directly on the existing substrate, PanElle immediately produced a new and waterproof look in the bathroom.

The wet cell renovation, which was divided into three stages, was planned and coordinated by our in-house bathroom manufactory. This department was established in 2016 especially for the fulfilment of special customer requirements. Their popularity is reflected today in the growing number of unusual customer enquiries that reach us every day.

Would you like to see more pictures of the project or do you have any questions? You will find further information on our website.
